EUPP June 2018 Newsletter ^[1]

Welcome to the inaugural edition of the EUPP Bulletin, a quarterly publication of activities and success stories achieved by USEA's Energy Utility Partnership Program (EUPP), a partnership with the U.S. Agency for International Development (USAID).

The Bulletin highlights EUPP work of the previous quarter, but also upcoming RFPs, volunteer opportunities, and goals. The Bulletin includes an Innovation Corner to unearth technologies that could drive development; it features pilot projects and underscores policies of interest to USAID and the countries that directly benefit from EUPP.
